FIRST EDULab LOAN RECIPIENT: Help Child Academy

ECHAIDE is excited to announce our first recipient of the EDULab Loan collaboration - Help Chid Academy in Kasoa.

Help Child Academy is a school of over 250+ students located in the Kasoa District of Accra. It is run by Rev. Philip Boateng. Rev. Boateng was in need of a new computer lab with furniture for his students. And in the past they had some very poor experiences with other ICT vendors, so they were wisely cautious.

Then came Mr. Frederick Osae, a TECHAiDE Sale Officer. He quickly assessed the situation and understood what Help Child Academy required to solve their ICT needs.

Frederick listened and followed the TECHAiDE standard EDULab Process Flow. He then suggested an EDULab Premium with TECHAiDE's specialized computer furniture. EDULab is an educational resource designed to improve teaching and learning especially ICT, Science, English, Math and testing for exams. It comprises of carefully selected appropriate and robust hardware and software that also helps administrators to effectively manage a school whilst saving time and money.

EDULab Process Flow

STEP 1 Needs Assessmnet	STEP 2 Aquisition & Installation	STEP 3 Deployment	step 4 User & Tech. Trainina	STEP 5 Technical Sunnort	STEP 6 Impact Assessment
ASSESSIMILEI	III9IUIIUIIUII		Hullilly	anhhaii	ASSESSIIICIII

Frederick worked with his Opportunity International counterpart, Mr. Dickens Gyan Antwi, School Coordinator for Kasoa Branch, and Rev. Boateng in order for Help Child Academy to successfully obtain an EDULab Loan. This process takes a little time but is well worth the wait. In the end, Help Child Academy was approved and received a 10-seater EDULab Premium along with TECHAiDE's special customized metallic computer desks and wooden chairs for durability (see pictures).

Help Child Academy also received a free training on lab maintenance as well as on the TECHAiDE Educational Bundle that helps with the teaching and learning of the GES curriculum.

An EDULab also comes with a free Service Level Agreement (SLA) that provides technical assistance for the first twelve months! This means if anything breaks or needs to be upgraded, TECHAiDE takes care of it at no cost to the school.
